## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1 - 4, drawn to a wiper.

Group II, claims 5 - 10, drawn to an apparatus for dispensing a plurality of six-sided wipers.

Group III, claims 11 - 17, drawn to a method of dispensing six-sided wipers.

Group IV, claims 18 - 26, drawn to a method of manufacturing six-sided wipers.

2. The inventions listed as Groups I - IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Claims 1 – 3 are either obvious over or anticipated by US 3,784,998. Accordingly, the special technical feature linking the four inventions, a six-sided wiper, does not provide a contribution over the prior art, and no single general inventive concept exists. Therefore, restriction is appropriate.

3. A telephone call was made to Robert G. Lancaster on June 14, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1772

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
